REQUEST FOR CORRECTION OF FILING RECEIPT

The Honorable Commissioner  
of Patents and Trademarks  
Washington, DC 20231  
Application Processing Division  
Customer Correction Branch

Sir:

This paper is being filed in response to the Official Filing Receipt mailed recently by the Patent Office. A review of this document reveals an error. More specifically, the application papers filed in connection with the referenced application on July 18, 1997 indicate the Applicants to be David H. Farb and Shelley J. Russek. Further, the title of the application indicated on the originally filed papers is AN IMPROVED METHOD FOR DETECTING NUCLEIC ACID.

The Official Filing Receipt incorrectly lists the Applicant as Shelley J. Russek. In addition, the title is incorrectly specified as METHOD FOR DETECTING NUCLEIC ACID. Please provide a corrected Official Filing Receipt naming the Applicants as David H. Farb and Shelley J. Russek, and the title as AN IMPROVED METHOD FOR DETECTING NUCLEIC ACID.

Respectfully submitted,

Kevin M. Farrell

LICENSE FOR FOREIGN FILING UNDER  
Title 35, United States Code, Section 184  
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "FOREIGN FILING LICENSE GRANTED" followed by a date appears on the reverse side of this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.11. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related application(s) filed under 37 CFR 1.62 which meets the provisions of 37 CFR 5.15(a). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations, especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR Parts 121-128) ); the Office of Export Administration, Department of Commerce (115 CFR 370.10 (j) ); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "FOREIGN FILING LICENSE GRANTED" DOES NOT appear on the reverse side of this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
